Sally's only reason for speaking, training and teaching people, is to stimulate and develop human potential. She delivers relevant, relational and riveting messages that fosters a shift in mindset. She creates and delivers keynote presentations and workshops to teachers, parents, teenagers and corporate groups, equipping them to leave mediocrity behind and step into excellence.

What's the best way to get started with your mindset revolution? One way is to identify where you may have fixed tendencies so that you can work to become more growth minded. We all live on a continuum, and consistent self-assessment helps us become the person we want to be.

Mindset renewal is an inquiry into the power of our beliefs, both conscious and unconscious, and how changing even the simplest of them can have profound impact on nearly every aspect of our lives. A "fixed mindset" assumes that our character, intelligence, and creative ability are static givens which we can't change in any meaningful way. A "growth mindset," on the other hand, thrives on challenge and sees failure not as evidence of unintelligence but as a heartening springboard for growth and for stretching our existing abilities. Out of these two mindsets, which we manifest from a very early age, springs a great deal of our behaviour, our relationship with success and failure in both professional and personal contexts, and ultimately our capacity to lead fulfilled lives.

Begin your journey of growth today.

# A poor mindset will rob anyone of the life they deserve!

In her debut book, SallyAnn bravely shares how being adopted and diagnosed with ADHD caused her to develop a poor mindset. Her poor mindset plagued her during much of her adult life, despite external success. In this honest self-reflection of her most stressful moments, SallyAnn chronicles the steps she has taken to shift her mindset.

SallyAnn now thrives on a growth mindset and has developed a formula for daily mind renewal. She offers this formula to executives, teachers, parents and teenagers to stop the self-sabotage and embrace who they have been called to be.

## SALLYANN GRAY HELPS PARENTS TO SHIFT THEIR MINDSET ON PARENTING

“When its all said and done, as parents, we all want well rounded, well adjusted contributing members of society as our offspring. In the end, it won’t matter so much what their profession is: lawyer, doctor, Indian or chief. What will matter most is WHO they are.” Whether you believe it or not parents, whether you embrace it or not, we have a HUGE role to play in that. Let us lead them not only in words but in deeds. For what we do will have a much bigger impact than what we say.”

-Excerpt, Wayward Teen to Transformed Queen: Strategies to Help your Teenager Succeed
